KODAK RVG 6100 Radiovisiograph (Reconditioned)

- Reconditioned (used),
- Technical condition: very good,
- Visual condition: very good,
- Real photos of the product,
- Made in the USA,
- High quality intraoral imaging,
- With its real resolution of 20 pl/mm, it guarantees high image quality. RVG 6100 is a top quality product created for all those who expect the highest image precision. The system uses a sensor shape that allows easier and more precise positioning. Its rounded edges are more comfortable for the patient,
- The Carestream RVG 6100 digital radiovisiography system allows the operator to take and analyze radiographs easily and quickly,
- Its reduced size facilitates proper and comfortable positioning of the sensor in children. The use of a unique technology with an optical fiber layer guarantees precise diagnosis, as well as unprecedented tolerance of exposure times. This large exposure time tolerance allows the operator to take perfectly exposed images every time,
- Features:
 - Unique optical fiber technology for high quality imaging,
 - Great exposure tolerance guaranteeing perfect images every time,
 - Extremely user-friendly and logical Carestream software,
 - Superior imaging and diagnostic quality consistent over time,
- Comes with an up-to-date inspection and is ready for operation,
- Issued Technical Passport (Service Report) valid for 12 months,
- Warranty:
 - 6-months for the domestic market (Poland),
 - 3-months for the international market,
 - Possibility to extend the warranty up to 12-months for domestic and international markets for a surcharge,
- Possibility of financing (Poland only): Installments, Leasing, Loan,
