LED NGP 41 SLIM negatoscope (New)

- Brand new product,
- Made in Poland,
- The LED NGP SLIM series negatoscopes are perfect for the use in operating rooms as well as in treatment rooms, offices specializing in mammography diagnostics, and in many other healthcare facilities,
- The NGP SLIM series is an offer of negatoscopes which use LED technology,
- An attractive design of these devices causes significant increase in the aesthetic value of the arrangement of each surgery,
- Among a wide range of products, models designed to be placed on a desk or for wall mounting can be chosen,
- Advantages of SLIM series negatoscopes:
 - Automatic light switching on and off during photographic film change,
 - The 3.5-cm-thick case has a front made of three-millimeter-thick acrylic base, which ensures consistent light dispersion at a very high level,
 - The operation of the light sources does not involve the stroboscopic flickering effect,
 - Thanks to the LED technology the fluorescent lamps can work for up to 50,000 hours,
 - Energy saving model,
 - The negatoscope emits light intensity of 6000 cd/m² - 19,000.00 lux regulated from 10-100% of maximum value,
- Mounting types of the negatoscope:
 - Wall-mounted,
 - Desk-based,
- Technical data:
 - Power supply: 230 V, 50; 60 Hz,
 - Power consumption: 250 W,
 - Light intensity: 6000 cd/m² - 19,000.00 lux,
 - Light intensity regulation: Yes,
 - Screen dimensions: 144 x 43 cm,
 - Automatic light switch off: in the handle,
 - The number of frames: 4,
 - Illumination uniformity: > 95%,
 - Mounting: wall, desk base,
 - Dimensions: 1520 x 520 x 35 mm (ultra thin),
 - Weight: 16 kg,
 - LED technology,
- It has a valid Technical Passport,
- Guarantee: 12 months,
