Ultrasound Scanner Eurosonic 15 VET (New)

• New,
• Made in Poland,
• Eurosonic is the add-on module that could be connected to any personal computer through the USB-2.0 interface. Full digital design is a key of an excellent image quality and the computer application allows to archive the most important examination data like images, examination description and cine-loop files on hard disk or any other electronic storage media,
• Scanner is equipped with the sector probe operating at 3,5/5/7,5MHz frequencies,
• Comes with:
  ◦ Ultrasound Scanner module,
  ◦ 3,5/5/7,5 MHz Probe,
  ◦ USB cable,
  ◦ CD with installation software and user manual,solid and light weight transportation case
• Technical Data:
• Probe: Multifrequency 3,5/5/7,5 MHz
• Presentation modes: B/B+2B/Real-time zoom,
• Measurements: Distance, perimeter, area, volume,
• Calculation programes: fetus age estimation for canine and feline based on HD and GS method,
• Grey scale: 256,
• Postprocessing: Interframe filtration, bilinear filtration,
• Computer communication: USB 2.0,
• Penetration depth: 60/80/120/160 mm,
• Cine loop: 256 frames (~20 seconds of examination),
• Data archive: Images, cine-loop files including description, time and date of an examination on hard disk or external storage device,
• Power consumption: 5 VA,
• Dimensions: 180 x 127 x 41 mm,
• Case dimensions: 390 x 314 x 102 mm,
• Weight: 430 g,
• Weight including case: 2300 g,
• Zasilanie: USB interface,
• 24-month warranty
