SURTRON EVAC smoke evacuator (New)

New,

Italian production,

The device eliminates the unpleasant smell of fumes consisting mainly of steam, organic gases and solid particles.

Reduces bacteriological and viral risk.

It has an electronic suction control system with an indicator of filter wear.

Adjustable thrust allows you to adapt it to individual needs during treatments.

Suction flow regulation

Indication of filter wear,

Quick filter replacement

Equipment:

2 m 3x1 mm SIE-IEC power cable

Handles suction set for surgical smoke removal systems

Suction set for evacuation of surgical vapors

ULPA filter for BLUE starter kit (5 h)

Activation of aspiration can occur:

Automatically, through the electronic system of automatic remote detection of activation of the high-frequency electrosurgical unit,

Manually, acting directly on the device,

Using the foot pedal,

Technical data:

Supply voltage - 230 V,

Power frequency - 50 Hz,

Maximum power consumption - 800 VA

Maximum aspiration power (vacuum) - 2700 LPM (95CFM),

Maximum static aspiration - -250 mbar (83 in H₂O),

ULPA type filter - activated carbon,

Filter - efficiency - 99.999% for 0.3 micron particles,

Weight - 4 kg

Dimensions WxHxD 370x144x319 mm,

Has a valid Technical Passport issued,

12 months warranty
